FISCAL IMPACT STATEMENT

LS 7007

BILL NUMBER: SB 356

NOTE PREPARED: Jan 29, 2010

BILL AMENDED: Jan 28, 2010

SUBJECT: Professional Licensing.

FIRST AUTHOR: Sen. Delph

BILL STATUS: CR Adopted - 1st House

FUNDS AFFECTED: X GENERAL
X DEDICATED
FEDERAL

IMPACT: State & Local

Summary of Legislation: (Amended) This bill has the following provisions:

Home Health Agency Criminal Checks- The bill allows a criminal history check for employees of home health agencies and personal services agencies to be provided through a private agency. The bill removes the July 1, 2010, expiration that allows limited criminal histories to be used for employees of home health agencies and personal services agencies.

Uniform Cease and Desist- The bill establishes a uniform procedure to allow a board of a regulated occupation to issue a cease and desist order to an unlicensed person who engages in an activity that requires a license. The bill repeals and makes conforming changes concerning cease and desist and injunction orders.

Merger of Barbers and Cosmetologists- The bill merges and changes membership on the Cosmetology and Barber Boards.

Relocation of Barber Statutes- The bill relocates barber statutes.

Mental Health Counselor Associate License- The bill establishes a mental health counselor associate license.

Elimination of Controlled Substances Advisory Committee- The bill eliminates the Controlled Substances Advisory Committee (CSAC) and transfers responsibilities to the Indiana Board of Pharmacy.

Revocation of CSR- The bill provides for automatic revocation of controlled substances permit if a physician's license is revoked. (Current law requires a separate administrative process to take place if

physician's license is revoked.)

INSPECT Provisions- The bill requires the Indiana scheduled prescription electronic collection and tracking program's (INSPECT) data base to include information on a controlled substance recipient's method of payment for the controlled substance dispensed. The bill allows INSPECT information to be released to the following: (1) state toxicologist; (2) the Medicaid retrospective and prospective drug utilization review program; and (3) a substance abuse assistance program for certain licensed health care providers. The bill provides criminal and civil immunity for a practitioner who in good faith provides information to a law enforcement agency based on a report from INSPECT. The bill requires certain boards to establish prescribing norms and dispensing guidelines for the unsolicited dissemination of INSPECT exception reports to certain persons.

Repeal of Environmental Health Specialists and Hypnotists- The bill repeals laws concerning the certification of environmental health specialists and licensure of hypnotists.

Conforming Changes- The bill makes conforming changes.

Effective Date: June 30, 2010; July 1, 2010.

Explanation of State Expenditures: *Home Health Agency Criminal Checks-* This bill will result in a continuance of the number of limited criminal history background checks performed in the state for employees of home health agencies and personal service agencies who have lived in the state for two years or more.

Currently, code provisions that require home health agency and personal service agency employees to obtain limited criminal history background checks if they have lived in the state for two or more years exist until June 30, 2010. After this date, all employees of home health agencies and personal service agencies will be required to obtain a national criminal history background check.

The bill also adds that employees of home health agencies and personal service agencies who have lived in the state for less than two years may obtain either a national criminal history background check or an expanded criminal history background check.

An expanded criminal history check includes a search of: (1) all the records maintained by all counties in Indiana and (2) the records maintained by all counties or similar government units in another state if the individual resided in another state in which the individual who is the subject of the investigation resided.

A national criminal history background check means a search of the criminal history background system maintained by the Federal Bureau of Investigation (FBI) based on fingerprint identification or any other method of positive identification. A national criminal history background check satisfies the requirements of the expanded criminal history background check, but an expanded criminal history background check may not satisfy the requirements of the national criminal history background check (depending on the search methods of the background check administrator).

This bill may minimally affect the workload of the Indiana State Police and the Indiana Office of Technology because of the background check provisions. However, these provisions are not expected to affect staffing levels.

Uniform Cease and Desist- This provision may generate a minor increase in expenditures for the AG if more investigations involving professional licenses occur. Under current law, the AG already investigates complaints of the licensed professions and can currently enjoin an individual found in violation of licensing law.

The Professional Licensing Agency (PLA) is currently able to, or in conjunction with the AG, impose cease and desist orders on various professionals. This provision should affect PLA expenditures minimally.

(Revised) *Merger of Barbers and Cosmetologists, Elimination of Controlled Substances Advisory Committee, & Repeal of Environmental Health Specialists and Hypnotists*- The proposed elimination and mergers of these boards would present a savings to state expenditures in the form of reduced salary per diem, mileage, hotel, staff, and materials cost. However, the following table provides estimates of savings only, as the PLA does not tabulate board costs separately at this time. The estimated savings assume full attendance at meetings, hotel stays, average round trip mileage of 150 miles, and staff costs for a 7.5-hour full meeting day.

Table. A. Estimated Expenditure Savings- Merger of Barber Board with Cosmetology Board, Elimination of CSAC, and Repeal of Dietician and Hypnotist Committees.	
Board Member Per Diem, Travel, Lodging, and other Expenses	\$22,837
Agenda Packet Preparation	\$600
Mailing of Packets	\$1,320
Staff Meeting Time	\$3,985
TOTAL ESTIMATED SAVINGS	\$28,742

The number of board members of the proposed Cosmetology/Barber Board would remain the same as the current Cosmetology Board.

With respect to the eliminated boards (Controlled Substances Advisory Committee, Hypnotists, and Environmental Health Specialists), the Controlled Substances Advisory Committee's duties would be given to the Pharmacy Board. Licensing or certification of hypnotists and Environmental Health Specialists would cease in Indiana as a result of this provision. (See *Explanation of State Revenues*.)

Revocation of Controlled Substances Permit- This provision would speed up the process of removing a controlled substances permit certification from a person that has had their professional license revoked. The process, along with the elimination of the Controlled Substances Advisory Committee, should reduce the administrative expense to process two separate revocation proceedings.

INSPECT Provisions- The amount of modification or expense that would be needed to adjust the INSPECT database to record the method of payment by a controlled substance recipient's purchase is currently indeterminable.

Mental Health Counselor Associate License- Given that the PLA currently processes mental health counselor licenses, it is likely that this provision would not require more than a negligible increase in expenditures to

carry out. The main cost would likely be the development of an exam, if a standard exam is not adopted by the Behavioral Health Board.

Explanation of State Revenues: *Home Health Agency Criminal Checks*- This provision would result in continued revenue receipts from limited criminal history background requests for employees who have lived in the state for more than two years. Depending on the method used to request a limited criminal history background check, revenue to the IOT Portal Fund and the General Fund may increase. For every limited criminal history background check requested, \$7 is forwarded to the General Fund. If a limited criminal history background check is requested online using AccessIndiana, either \$8 or \$9.32 (depending if the requestor is an AccessIndiana member or not) is deposited in the IOT Portal Fund.

The provision may also result in decreases in state revenue to the extent employees who have lived in the state for less than two years elect to request an expanded criminal history background check rather than a national criminal history background check.

For every national criminal history background check performed in the state, \$15 is forwarded to the General Fund. Decreases in state revenue will ultimately depend on (1) any price difference between an expanded criminal history background check and a national criminal history background check and (2) if one method to request criminal history information is more accessible than another. It is assumed that if one type of criminal history background check is less expensive than another, the cheapest alternative will be selected by the requestor. Additionally, if one method to request criminal history information is easier to access, or requires less time than another, it was assumed that a more accessible method may also be preferred to the other. Any impact these factors may have on requests for national criminal history information and state revenue is indeterminable.

(Revised) *Merger of Barbers and Cosmetologists, Elimination of Controlled Substances Advisory Committee, & Repeal of Environmental Health Specialists and Hypnotists*- Given no changes to fee structure or regulation within the proposed merged boards, revenue from licensing fees for barbers should continue as currently collected.

The complete deregulation of hypnotists and environmental health specialists would lead to a reduction in revenue. The following table illustrates the amount of revenue collected over the last two state fiscal years by each of these professional licenses.

Table B. Fee Revenue from Hypnotist and Environmental Health Specialists FY 2008 - 2009.		
Profession	FY 2008 Revenue	FY 2009 Revenue
Hypnotists	\$5,525	\$1,110
Environmental Health Specialists	\$5,515	\$3,315
TOTAL	\$11,040	\$4,425

Both licensed hypnotist and environmental health specialists hold two-year licenses.

(Revised) *INSPECT Provisions*- This provision would give criminal and civil immunity to a practitioner that in good faith reports information from an INSPECT report to a law enforcement agency. As a result, this

provision could reduce the number of lawsuits filed against practitioners. If fewer lawsuits occur, state General Fund revenue from court filing fees would be reduced.

Mental Health Counselor Associate License- The impact of this provision on state revenues is indeterminable and would depend on the fee set by the Behavioral Health Board. As of December 12, 2009, there were 1,640 mental health counselors licensed. The current fee for mental health counselors is \$50. Total revenue collected by the Behavioral Health Board in FY 2009 was \$78,348.

Explanation of Local Expenditures:

Explanation of Local Revenues:

State Agencies Affected: AG; PLA.

Local Agencies Affected: Trial courts, local law enforcement.
